22nd June, 2023.

Dear Sir/Madam,

RE: 43rd MATHEMATICS TEACHERS' CONFERENCE 2023

Warmest greetings from Uganda Mathematical Society (UMS). As always, UMS organizes teachers' conference for all Mathematics teachers/users in the country annually. This year's conference is slated for **Friday 21st July, 2023** at the Yusuf Lule Auditorium, Makerere University from 7.00 am with registration. The teachers' conference will be followed with two events; the annual general meeting and the prize giving ceremony on Saturday 22nd July, 2023 at Makerere University Rugby Ground.

The conference will feature renowned Mathematics Educators from different sectors. The key note speaker will be **Mrs. Toni Beardon**, Founder and Chair of African Institute for Mathematical Sciences Schools Enrichment Centre (AIMSSEC) in Cape Town, South Africa.

Each participant will contribute a fee of 25,000 Uganda shillings which will cater for lunch, stationery and other conference expenses. All other expenses such as transport, accommodation and parking of vehicles at the university incurred by the participants will be met from their own pockets.

We encourage many Mathematics teachers to participate in this year's conference so that together we can share experiences and learn techniques that enable us to become better Mathematics Educators.

We look forward to having a wonderful conference with you.

Thank you very much.

Yours Sincerely,

Dr. Joseph Ssebuliba (PhD)
President UMS and
Lecturer, Department of Mathematics (Makerere University).
